About VT Fresh: VT Fresh aims to increase access and improve availability and consumption of fruits and vegetables. Since 2014, VT Fresh has been implemented at 88 food shelves and is being offered during 17 VeggieVanGo produce distributions at hospitals and schools. Partners have not only increased produce distribution but have transformed and even beautified their food environment in a way that “nudges” visitors to support them in making healthier food choices.

Please note: All items received through this program must be used for fruits and vegetables!
