HUNGER ACTION MONTH™ | **FEEDING AMERICA**

THIS SEPTEMBER WE INVITE YOUR COMPANY TO PARTICIPATE

What is Pick for Your Neighbor?

Pick for Your Neighbor is great way for Vermonters to help fight hunger in Vermont. During apple season, you can visit a local participating orchard to pick and purchase extra apples for donation to the Vermont Foodbank. The Foodbank will distribute the apples throughout Vermont to our neighbors in need of food assistance.

Community Impact

Since 2009, this program has provided more than 80,000 pounds of locally grown, fresh-picked nutritious apples to Vermonters in need.

Benefits to your Company

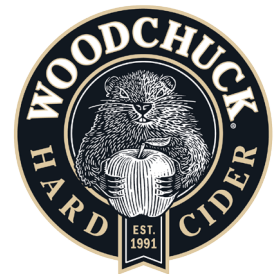

- Boost camaraderie, employee satisfaction and strengthen corporate culture.
- Make a difference in the community where your employees and customers live.
- Encourage teamwork.
- Enhance community presence and reputation.

How to Participate as a Group

1. Determine your budget. A pound of apples can range from \$0.60 to \$1 per pound. For example, \$300 will provide approximately 400 pounds – that’s 800 apples!
2. Encourage and organize your employees to participate.
3. Contact a participating orchard to arrange a day/time for your group.
4. On your scheduled day, employees will spend approximately 1 hour or more picking apples.
5. Your business or employees pay for the apples and leave them at the orchard.
6. The orchard will store the apples and the Foodbank will pick-up.
7. Take photos of the outing and post them on the Vermont Foodbank’s Facebook page at www.facebook.com/vermontfoodbank.
